

NDA Sustainability Report

Alyson Morris and Davide Stronati

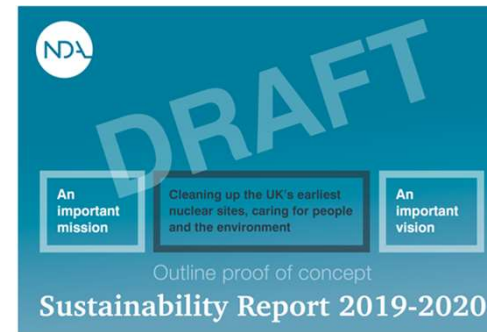

April 2021

NDA Sustainability Report

Why produce the Sustainability Report?

- Not aiming to replicate these reports
- But there are strong links
- Looking to develop a report which is recognisable as a sustainability report
- May not achieve the right balance in the first iteration

Development piece
'proof of concept'

Worked well as an
engagement tool.
Lots of useful
feedback for future.

Aims of this iteration of the report:-

Further develop our thinking

Raise awareness of the breadth of sustainability

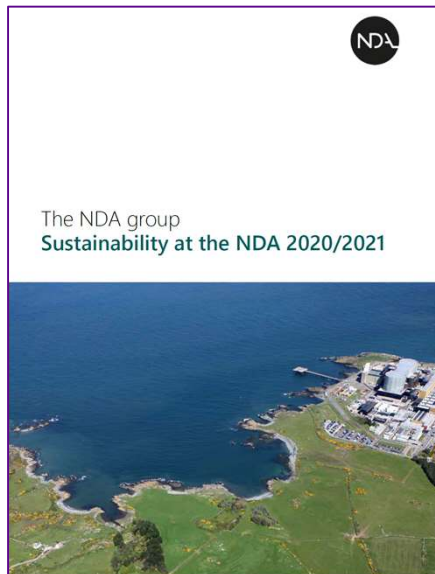

Highlight the good things we are doing

Collaborate with colleagues in NDA Group

Engage more widely with stakeholders

NDA Sustainability Report

What Happened Next?

- Took 'proof of concept' to NDA Executive who liked it and asked for its publication
- New Director of Sustainability joined NDA and took ownership of the report
- NDA Comms team issued the report in February on NDA website
